 Z 65) airfield. Description: Low-wing monoplane; trape-
 zoidal wings; one radial engine; single-seater; cockpit
 faired to the rear; antenna mast aft of cockpit; gray-green
 coat of paint

25X1C

b. There was no flying.

25X1C

25X1X

c. Two trucks and passenger
 car were observed at the field.

25X1

25X1

7 June 1949

2. a. Eighteen single-engine low-wing monoplanes and one twin-
 engine "Dakota" plane were parked in front of the hangars
 of the STAAKEN airfield between 10:30 ~~a.m.~~ 11:30 a.m.
 one U-2 took off and a fighter did acrobatics over the air-
 field at an altitude of about 6,600 feet.

b. Individual sentries were posted at the airfield border,
 especially in the vicinity of the fuel dump on the northern
 border.

25X1X

20 June 1949

3. a. Ten single-engine aircraft (radial engine; low-wing mono-
 plane; three-bladed propeller; retractable landing gear)
 were parked in front of the flight control station at the
 STAAKEN airfield.

b. Six twin-engine low-wing monoplanes with radial engines
 stood in front of the repair hangar. Three of these air-
 craft had a four-bladed propeller and were painted red;
 the others had a three-bladed propeller and a silver gray
 coat of paint.

c. There was no motor vehicle traffic

25X1A 4. Comment:

25X1C Report confirms that the STAKEN airfield is occupied
by a fighter unit. From the results of radio moni-
toring, STAKEN is assumed to be occupied by a fighter
25X1C regiment equipped with IAs.
